A motion was made by Board Member Clarke and a second by Board Member Rosenburgh. The minutes were approved unanimously by members of the Board.

Chairman Fox stated the motion passed.

Secretary’s Remarks

Secretary Hopkins started off by welcoming everyone to the Board of Transportation meeting. He said that he hoped everyone had a safe and happy holiday season.

Secretary Hopkins announced that we have just passed the 100-day mark since Hurricane Helene hit NC. Recovery continues with temporary bridge installations, slide and shoulder repairs, and road reconstruction work with a focus on major corridors and communities with limited access. As Tim Anderson, Division 13 Engineer, aptly put it in one of our recovery videos, we have a team that can move mountains. Our team has been put to the test and they continue to make progress. Our crews and contractors have now fully reopened more than 1,200 roads since Helene hit, with 78 having partial access. As of this morning, there are 184 roads still closed. Our communications team put together a video highlighting the progress made these past 100 days that was shared with the room. Anyone interested can follow our efforts to reopen roads on a dashboard created for this, it’s linked on DriveNC.gov. We’re continually grateful for the efforts of our staff, our contractors and many partners as we help Western North Carolina recover.

Secretary Hopkins extended his gratitude to our law enforcement partners for keeping us safe. They just completed their holiday Booze It & Lose It campaign which is when law enforcement

across the state increases patrols and checkpoints to promote safety and crack down on impaired driving. We thank these officers for their service always, but especially around the holiday season as they leave their loved ones to ensure our safety on the roads. While the campaign has concluded, our message to drivers never ends: obey the laws of the road – buckle up, focus on the road while driving, don't speed, and never drink and drive.

Secretary Hopkins continued the topic of road safety. He announced that last month we had an event dedicating the Tree of Life outside the State Capitol. The annual event commemorates those who died on NC roads each year. This tree lighting honored the 1,686 people killed in vehicle crashes on NC roads in 2023 and serves as a solemn reminder of the importance of being safe on the roads.

Secretary Hopkins announced that after five years, NC By Train brought back the Santa Train this holiday season. The train departed Raleigh for Greensboro and then made the return trip home last month, just in time for Santa to get back to the North Pole before Christmas. During the trip, children and families were able to make wonderful memories while meeting with Santa and Mrs. Claus. A very cool and popular offering by NC By Train and we're glad to see it return.

Secretary Hopkins also shared that WomenConnect took their holiday networking event to the tracks last month. Participants traveled by train from Raleigh to Greensboro for a day of networking, inspiration and holiday cheer. We're glad to see women across all our units connecting through this resource group that fosters personal and professional development. And we're grateful to NC By Train for coordinating both meaningful holiday events.

Secretary Hopkins had the privilege of joining military officials last month in signing a proclamation to consider future arrangements in which we would manage road maintenance and highway construction projects on U.S. Army posts and Marine Corps bases in the state. This agreement allows us to provide transportation support services to Army posts statewide over a 10-year period, while the federal government fully pays for these projects. This kind of partnership began in 2021 with Fort Liberty. Since then, we have delivered \$17M in road improvements on the Army installation, with \$15M more under contract.

Lastly, Secretary Hopkins shared an end-of-year video that showcases the Department's highlights from 2024. AS a disclaimer, he mentioned that some of the numbers in the video differ from the latest figures in the video from earlier – this is because these numbers are fluid and can change week to week. He thanked to the communications team for helping us look back on 2024 as we turn the page to all that 2025 has in store. He said that he is grateful to be

able to work with everyone in the board room and all of our team here at NCDOT, and he look forward to what this year brings.

Corrections to the State Highway System:

County	Requested Action
Anson	Petition 4909 added Russell Horne Road (SR 1147), for an incorrect distance of 0.30 miles. According to documentation received just after the June 1962 approval, full right-of-way along the entire 0.25-mile length was not able to be secured. Therefore, the distance of addition is being corrected to 0.25 miles along the original alignment, which translates to a 0.23-mile length of maintenance along current alignment. This correction is retroactive to June 28, 1962.
Catawba	Petition 10995 incorrectly abandoned SR 1842 for 0.10 miles. The correct distance of abandonment should have been 0.22 miles, which re-establishes the maintenance length of present-day SR 1842 to 1.58 miles. This correction is retroactive to February 3, 1967.
Franklin	Petition 53061 incorrectly added Kimberling Drive for 0.06 miles. The correct distance of addition should be 0.08 miles. This correction is retroactive to November 7, 2024.
Franklin	Petition 53062 added Harmony Ranch. The correct name should have been Harmony Ranch Lane. Petition 53062 also incorrectly added Kimberling Drive for 0.25 miles. The correct distance of addition should have been 0.22 miles. These corrections are retroactive to November 7, 2024.

Revenues and Other Receipts

Revenues and Other Receipts Commentary

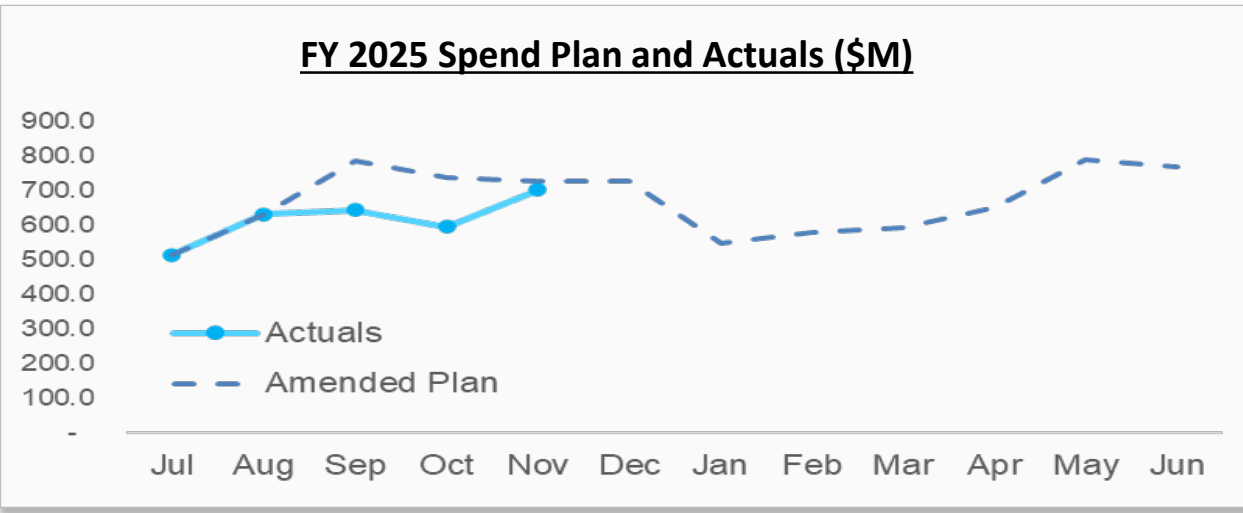

- November revenues and other receipts are 10.3% or \$62.9M above forecast largely due to FHWA and Turnpike federal aid receipts and partly due to License and Fees. Lower than anticipated sales tax revenue and Infra Grant receipts offset the higher receipts for the month of November
- Federal Aid – Infra Grant was below forecast by \$28.6M due to a delay in the Alligator River Bridge project.
- FYTD revenues and other receipts are 3.4% or \$106.3M above forecast.
- HF and HTF revenues show YOY growth; 7.4% and 2.6%, respectively.

Expenditures and Other Disbursements

- ### Expenditures and Other Disbursements Commentary
- November expenditures and other disbursements were 3.8% or \$27.4M below monthly forecast largely due to Modal and Construction.
 - November Construction was 3.8% or \$13.9M below monthly forecast largely due to STIP Preconstruction.
 - November Maintenance expenditures were 7.2% or \$17.3M above monthly forecast due to FEMA spend for Hurricane Helene response and recovery efforts.
 - November Modal expenditures were 42.1% or \$30.0M below monthly forecast largely due to expenditure timing differences in Integrated Mobility Division and Rail.

Subcommittee Update

Highway Modernization:

- While the subcommittee agreed that the Modernization basics are currently working well, they also believe that there is more to Modernization than meeting the basics
- Majority of Modernization projects have a zero score under the Lane Width criterion and the Shoulder Width criterion
- Subcommittee is examining if there are better/more accurate ways to measure aspects of a project

Highway Accessibility/Connectivity Criterion:

- Criterion is currently based on two measures:
 - county economic distress

Board of Transportation Meeting – January 2025

Connecting people, products and places safely and efficiently with customer focus, accountability and environmental sensitivity to enhance the economy and vitality of North Carolina

What we will cover

The big questions on maintenance and operations

- What are our assets?
- What governs us?
- What is our funding?
- Planned Maintenance
- Reactive Maintenance
- Planning, Executing, and Monitoring Maintenance
- Summary

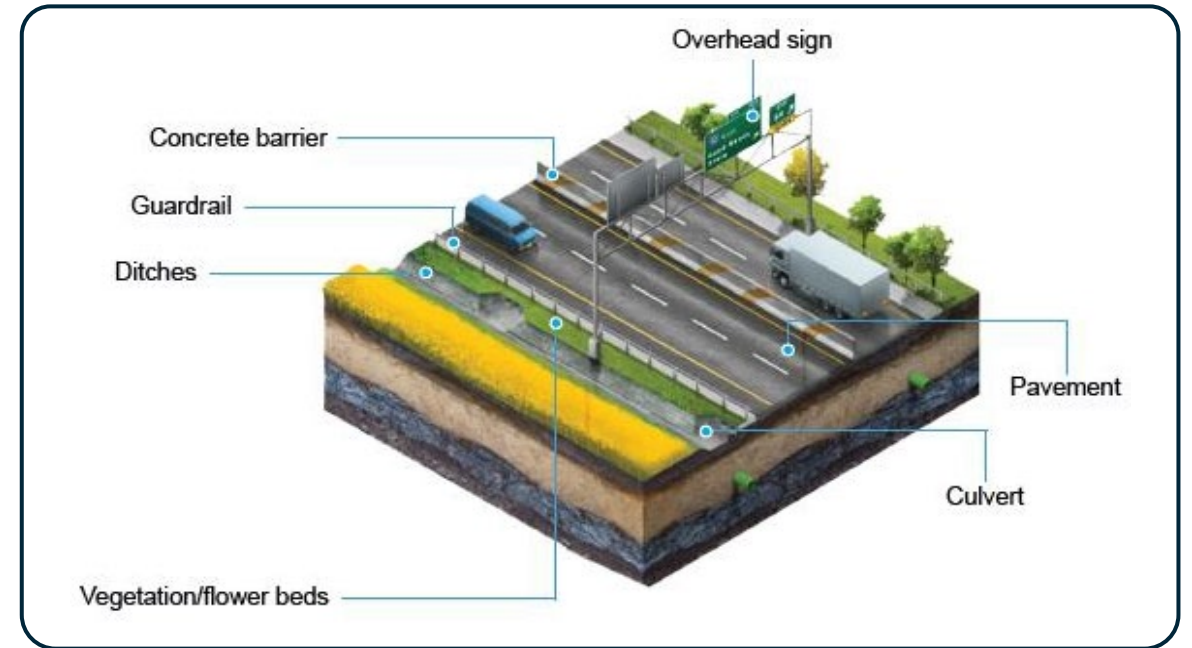

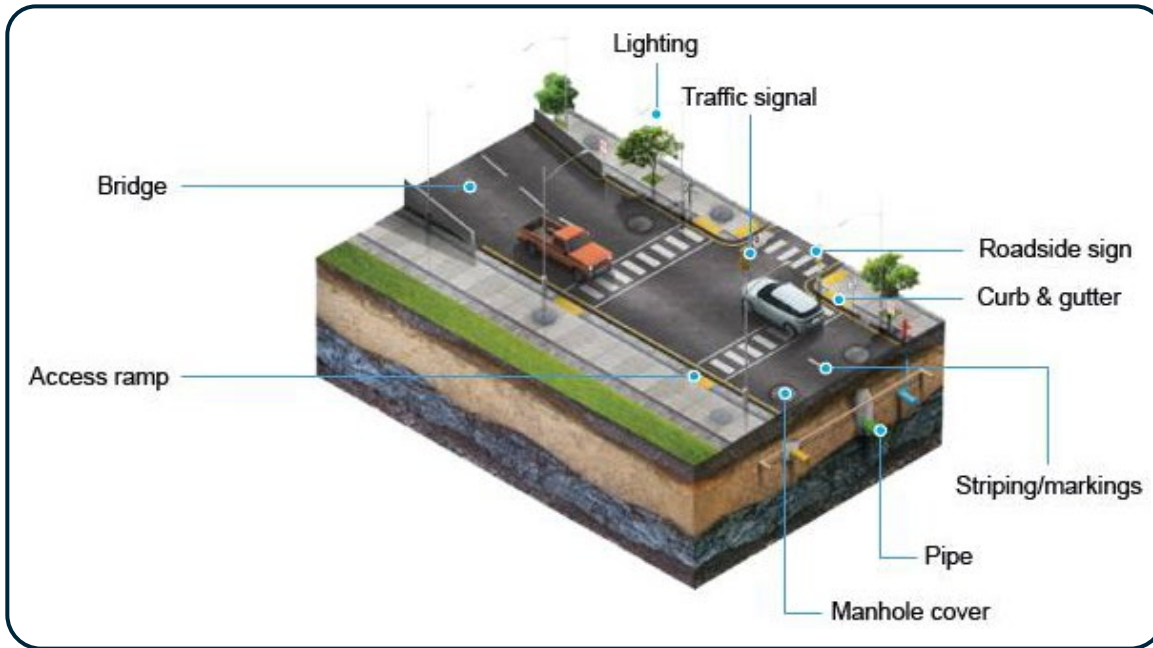

Remembering our Past

- 1931 – Pivotal year regarding the size of the North Carolina Highway System.
- NC Population – 3 Million(Rural)
- Industry – Agriculture, Textiles and Furniture
- 45,000 additional miles added from the county systems
- State maintenance grew from 9,000 to 54,000 miles
- Property Taxes no longer fund roads in NC
