Board of Transportation Meeting

November 3 - 4, 2010

Call to Order

Chairman Collier called the meeting of the Board of Transportation to order at 1:02 p.m., Wednesday, November 3, 2010 in Raleigh, North Carolina with the following members present:

White, Overholt, McNairy, Alford, Tulloss, Watts, Szlosberg-Landis, Ciccone, Fox, Wall, Burns, Womble, Perkins, Collett, Halsey, Burrell

Member Proffitt was absent.

Ethics Statement

Chairman Collier read the Ethics Statement advising any Board Member that may have a conflict of interest or appearance of conflict to abstain from participation in that particular item and to file the proper paper work with the Secretary to the Board.

Approval – Minutes of October 6 – 7, 2010 Board Meeting

The minutes of the October 6 – 7, 2010 Board of Transportation Meeting were unanimously approved upon a motion by Board Member Burns, which was seconded by Board Member Burrell.

Chairman's Remarks

Chairman Collier welcomed everyone back to Raleigh and thanked Board Member Burrell, Board Member Proffitt, Division Engineer Jay Swain and Division Engineer Joel Setzer for all of their hard work in preparing and hosting the October meeting in the Western part of the state.

Chief Operating Officer Jim Trogdon's Remarks

Chief Operating Officer Jim Trogdon welcomed everyone to Raleigh. He expressed Secretary Conti's regrets for not being able to attend the meeting. Mr. Trogdon informed the Board of the new devices being used by the Communications Office to share news updates with everyone. Every Monday Dara Demi and Jonathan Phillips are producing a video called "NCDOT Now". The first video was launched on November 1, 2010 and the Communications Office has already received a request from the town of Cary to air it on their public access television station. The video is available on the NCDOT webpage as well as You Tube.

Mr. Trogdon shared that NCDOT is making significant strides in the effort to bring high-speed rail to North Carolina. In addition to the \$22 million grant we received last week, the Department also held a ground breaking ceremony on a project to expand the Cary depot. It is the first of 9 train station improvement projects across the state that NCDOT is paying for with recovery funding. These projects will help provide the infrastructure needed to support high-speed rail in the future. Until those faster trains are a reality, the improvements we are making will support the fast growing number of people riding the rails today. Ridership on North Carolina's Amtrak grew 15% in FY 2010. That is more than double the growth Amtrak saw nationally. Also, the state-owned train, the Piedmont, had the largest percentage increase in ridership in the nation at 46%. These numbers show the expanding interest in train travel as well as the importance of providing options to meet the demand.

The Department's annual performance report is now available. The Department has spent the past year putting Governor Perdue's vision for transportation reform into action. The report highlights the many successes we have had and shows where we can work harder to better meet our mission and goals. One area addressed in the report is the new work program and the prioritization process used to determine which projects are part of it. Ranking projects based on a standard set of hard data is a new concept to DOT. Citizens think we can make that process better. Therefore, the Department is holding "listening sessions" across the state

beginning the week of November 8, 2010. We will use these opportunities to learn from the public how we improve prioritization in the future. Mr. Trogdon asked the Board Members to encourage members of MPOs, RPOs and other interested groups to attend these meetings.

Mr. Trogdon shared information with the Board regarding the low bid for the Monroe/Connector bypass. The low bidder is a joint venture of United Infrastructure Group, Inc., Boggs Paving, Inc., and Anderson Columbia Company, Inc., teamed with lead design firm Rummel, Klepper & Kahl LLP. The bid submitted was \$97 million below the engineer's estimate. Once the toll financing and permitting are successfully completed, the contract will be awarded, and construction will begin. However, a lawsuit was filed in Federal Court which may impact the timing.

Mr. Trogdon announced that DMV now has two new deputy commissioners. Ronald Kaylor, Jr. will oversee the License and Theft Bureau, and the Hearings and Adjudication section while Johanna Reese will oversee the Drivers Services, Vehicle Services and Operations sections.

The Governor's Highway Safety Program held the Halloween "Booze It & Lose It" campaign. Law enforcement officers conducted nearly 2,400 stepped-up patrols and checkpoints statewide. They issued more than 19,000 traffic and criminal citations, including almost 800 DWI arrest.

The Department recently won the Bronze "Making a Difference" Award from the National Partnership for Highway Quality. The award was in the "Breaking the Mold" category for a web tool that estimates how much rain has fallen at road construction sites. This tool was developed by the Roadside Environmental Unit and the Hydraulics Unit. Permits require them to check the condition of erosion control and stormwater retention devices after more than 1-half inch of rain falls on construction sites within 24 hours.

Mr. Trogon announced the recipients of the Buford Smith award. This award was established to honor Mr. Buford Smith, Division 10 Traffic Engineer, who was killed in a head-on collision in 1982. To preserve his memory, the award in his name is presented every year to an employee from traffic engineering or traffic services who best exemplifies outstanding leadership and significant achievements. The 2009 recipient was Mr. Sam Nichols. Mr. Nichols currently serves as the Division 12 Traffic Engineer. Because of his vast experience, he often serves as a mentor to younger traffic engineering professionals within the Department. Mr. Nichols leads by example. The 2010 recipient was Mr. Elbert Edge. Mr. Edge was such a vital asset to the Department that his peers felt he deserved this honor even after retirement. He retired in 2008 after 39 years with DOT. Mr. Edge started as a temporary general utility worker and worked his way up to Electronics Technician III in Division 6. Mr. Trogon stated that these men exemplify what is great about our organization – the commitment of the people. He encouraged everyone to follow their lead and use their skills and knowledge to make NCDOT a better agency.

Mobility Fund

Director of the Strategic Planning Office, Don Voelker, introduced Mr. David Wasserman from the Strategic Planning Office to present information to the Board on the Mobility Fund. The Mobility Fund was established by the Appropriations Act of 2010. It will fund projects of statewide and regional significance that relieve congestion and enhance mobility across all modes of transportation. The Department will be reviewing comments, finalizing criteria and scoring methodology in November. The Board of Transportation will approve criteria and the scoring methodology in December and a final report will be provided to JLTOC on December 15.

Revised Traffic Noise Abatement Policy and Traffic Noise Guidance Manual

Mr. Greg Smith, Traffic Noise and Air Quality Group Leader, presented information to the Board regarding the Revised Traffic Noise Abatement Policy and Traffic Noise Guidance Manual. The 2010 Traffic Noise Abatement Policy Committee consists of voting members, technical support and sponsors. Mr. Smith shared the 2011 Policy Highlights with the Board. He also shared information regarding the Traffic Noise Analysis and Abatement Manual. The public comment period for this information is mid November to mid December. The Guidance Manual will be presented to the Board in December with approval and effective dates in July 2011.

Update on Complete Streets Policy Implementation

Jim Westmoreland, Deputy Secretary for Transit, introduced Jay Bennett, State Roadway Design Engineer, who presented information regarding an update on Complete Streets Policy Implementation. In July 2009 the policy was approved and passed by the Board. Mr. Bennett introduced Tracey Newsome, City of Charlotte, Transportation Planning and Design Division. Complete Streets are planned, designed and operated to enable safe, attractive, and comfortable access and travel for individuals of all ages and abilities, including pedestrians, bicyclists, transit users, and motorists. Mr. Bennett shared key issues for NCDOT to address as the policy implementation moves forward.

NCDOT Proposed Art Policy

State Roadside Environmental Engineer, Don Lee presented information to the Board regarding the proposed NCDOT Right of Way Art Policy. Mr. Lee stated the Art Policy addresses statewide consistency, permitting guidance for Divisions, safety requirements and maintenance concerns. He also shared the policy guiding principles and the permitting steps. Upon installation, the local agency maintains the installation per the encroachment agreement. Also, DOT may remove or require the local agency to remove the art due to safety concerns, lack of maintenance, deterioration, or future highway construction and maintenance activities. NCDOT may require local agency to assume partial or complete financial responsibility for installation. The next steps for the policy are: Board Approval; Move forward with project in Division Seven; and integrate components of Art Policy into an overall aesthetics policy for the Department.

Financial Report

Chief Financial Officer Mark Foster presented the Board with the current financial report. Mr. Foster highlighted information regarding the year to date operations of the Department.

Charlotte I-85 & I-485 Design Build Projects

Rodger Rochelle, Director of the Transportation Program Management Unit, presented the Board with information regarding the Charlotte I-85 and I-485 design build Projects. Mr. Rochelle introduced Mr. David Gray, Lane Construction Corporation. Mr. Gray presented information regarding the low bid on the projects and their plan for building the projects in a timely manner.

Recess

The Board meeting was recessed until 11:00 a.m., Thursday, November 4, 2010.

Call to Order – November 4, 2010

Chairman Collier called the meeting of the Board of Transportation to order at 11:01 a.m., Thursday, November 4, 2010 in Raleigh, North Carolina with the following members present:

White, Overholt, McNairy, Alford, Tulloss, Ciccone, Fox, Wall, Womble, Perkins, Collett, Halsey, Proffitt, Burrell

Members Watts, Szlosberg-Landis, and Burns were absent.

Invocation

The invocation was offered by Board Member White.

Ethics Statement

Chairman Collier reminded the Board of the Ethics Statement that was read on Wednesday advising any Board Member that may have a conflict of interest or appearance of conflict to abstain from participation in that particular item and to file the proper paper work with the Secretary to the Board.

21st Century Transportation Committee Report

Chairman Collier introduced Brad Wilson, Chairman, 21st Century Transportation Committee. Mr. Wilson thanked Secretary Conti and all employees of DOT for doing the great job they do for North Carolina. He also shared information with the Board regarding the findings and recommendations of the committee. Mr. Wilson stressed that the current funding sources for transportation are not sustainable and going forward alternative revenues must be implemented.

Secretary Conti Remarks

Secretary Conti shared information regarding the Annual AASHTO meeting. He announced that Charlotte, North Carolina has been chosen to host the annual meeting in 2014. Atlanta hosted the first AASHTO meeting in 1914. This will be the 100th annual meeting and Secretary Conti is sure that North Carolina will make it a very memorable meeting. He also announced that in 2013 North Carolina will host SASHTO. This meeting will be held in Asheville.

Approval of Agenda

A motion was made by Board Member Burrell, seconded by Board Member White, to approve the agenda items and handouts, excluding agenda items C,D,E,H and L, as they are consent items and require no Board action.

Approval – Award of Highway Construction Contracts in the October 19, 2010 Letting

Approval – Rail Program

A motion was made by Board Member Burrell, which was seconded by Board Member

White to approve the following:

Town/County Division	Project Description	Estimated Cost
1. Norfolk Southern Railway Company (NSR)	Approval is requested to enter into a construction agreement with Norfolk Southern Railway Company for flagging and signal cable relocation needed for the Burlington Station Platform Extension. The total estimated cost of the project is \$85,000 and will be 100% funded by the American Recovery and Reinvestment Act funds.	\$85,000

2. Wilson/Wayne County Division 4 State rail Industrial Access funds are needed to partially finance the costs of constructing a rail industrial access track to serve Project Amber. The company is considering constructing a new facility within the county. The company proposes to hire about 40 new employees and make a capital investment of about \$1.4 million. The plan to receive at least 1200 carloads of rail freight per year. Funding is contingent upon an environmental review and all other Rail Industrial Access Program requirements being satisfied and is conditional on implementation of transportation improvements necessary to protect the safety of the public contractors and employees of Project Amber. Funding is contingent upon a construction schedule that complies with grant requirements.

Approval – Municipal and Special Agreements

A motion was made by Board Member Burrell, which was seconded by Board Member White, to approve the following agreements:

Board Member Wall abstained from voting on Project EB5118 GD in Alamance County.

0 SUMMARY: There are a total of 40 agreements for approval by the Board of Transportation.

Statewide

Norfolk Southern Railway Corporation
(NSR)
North Carolina Railroad Company (NCRR)

This Agreement covers the consent by NCRR of the terms of an Agreement entered into between Norfolk Southern Railway Company and the North Carolina Department of Transportation on March 28, 2008 (Crossing Master Agreement) regarding the installation, revision, modification or replacement of automatic railway-highway grade crossing signals, gates and traffic control devices impacting NSR locations statewide. NCRR owns rail lines which are operated, though a Lease Agreement dated July 27, 1999 (Master Agreement), by NSR. NCRR has agreed to apply the terms of the March 28, 2008 Agreement to those rail lines owned by NCRR but leased to NSR for operation.

Division 2

Town of Emerald Isle
Carteret County
ER-2971 E
3602.3.08

This project consists of installing approximately 1072 linear feet of 10-foot wide multi-use path on the south side of NC 58 from Ocean Drive to Park Street in Emerald Isle. Approval - Acquisition of Structures Partially Outside the Right of Way

A motion was made by Board Member Burrell, which was seconded by Board Member White to approve the following:

The preliminary right of way plans for the following highway projects necessitate the acquisition of a part of certain buildings or structures located within the right of way of projects. Based upon the recommendation of the Manager of the Right of Way Branch and affidavits of independent real estate appraisers, the Board finds that the partial taking of the buildings or structures will substantially destroy the economic value or utility of the buildings or structures.

The Board finds that such acquisition of the structures or parts thereof outside the right of way are for a public use and are necessary for the construction of the projects.

The Right of Way Branch has been directed to acquire the below described buildings or structures in their entirety for the construction of the listed projects. The Attorney General, if necessary, is requested to institute proceedings to acquire the buildings or structures in their entirety, together with the right to enter upon the surrounding lands for the purpose of removing the buildings or structures.

Approval - Advance Acquisition of Highway Right of Way

Upon recommendation of the Manager of the Right of Way Branch, and on a motion by Board Member Burrell, which was seconded by Board Member White, the Board approved to authorize the acquisition of the following properties through negotiation or condemnation for purposes of highway construction in order to prevent undue hardship on property owners or to protect the right of way corridor from development prior to regular project approval. The Board finds such acquisitions to be necessary, and hereby authorizes the Right of Way Branch to acquire said properties either by negotiation or by condemnation through the Office of the Attorney General.
