

I-85 Improvements

STIP Project Nos. I-5719/U-3608/U-5800 | Gaston County

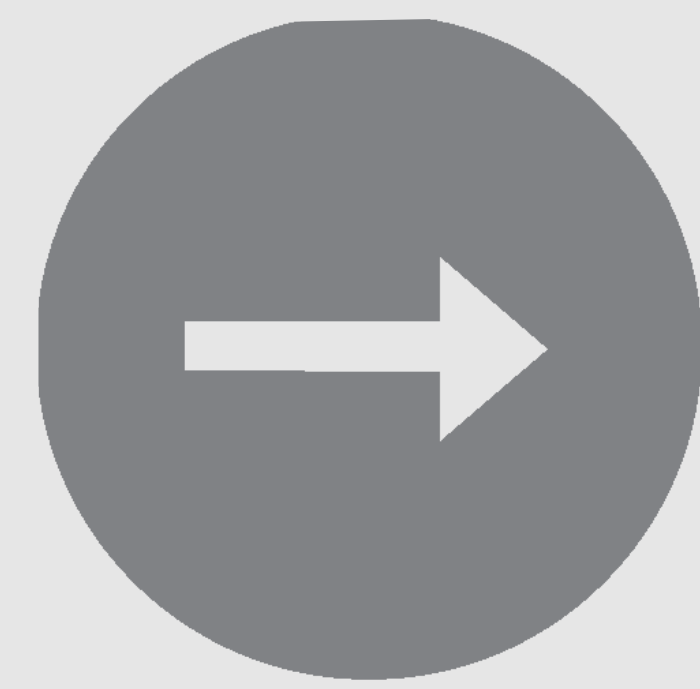

South Church Street (S.R. 2339) Bridge Bridge 350136

Initial Option

Replace in Place

- Additional impacts likely due to required temporary detour bridge.
- Potential residential relocations due to temporary detour bridge.
- Additional alternatives were not considered due to right-of-way impacts on the south side of the bridge. In addition, a bridge located to either side of the current bridge would need to be longer to accommodate the ramps at the S. Main Street interchange.

Concept Recommended for Further Study

Replace in Place
